

Cerrahgil Ship Agencies & Services Co. Ltd.

Always Aiming to Exceed Expectations

ABOUT US

Cerrahgil traces its operational roots back to **Ereğli in 1887**, later relocating its headquarters to **Istanbul in 1921**, and becoming incorporated as the **first joint stock company in Türkiye's maritime history in 1954**, marking a distinguished legacy in the shipping industry.

Cerrahgil Agency today stands as one of Türkiye's **oldest and most reputable maritime agencies**, providing professional services to non-liner vessels calling at all Turkish ports and transiting the Turkish Straits.

With deep historical expertise, accumulated operational knowledge, and decades of industry experience, Cerrahgil continues to deliver exceptional agency services to its global principals across Türkiye.

With **12 port offices** and **over 95 qualified agency operations staff**, the Cerrahgil Agency ensures unmatched nationwide coverage, operational efficiency, and consistent service excellence across the entire Turkish coastline and straits.

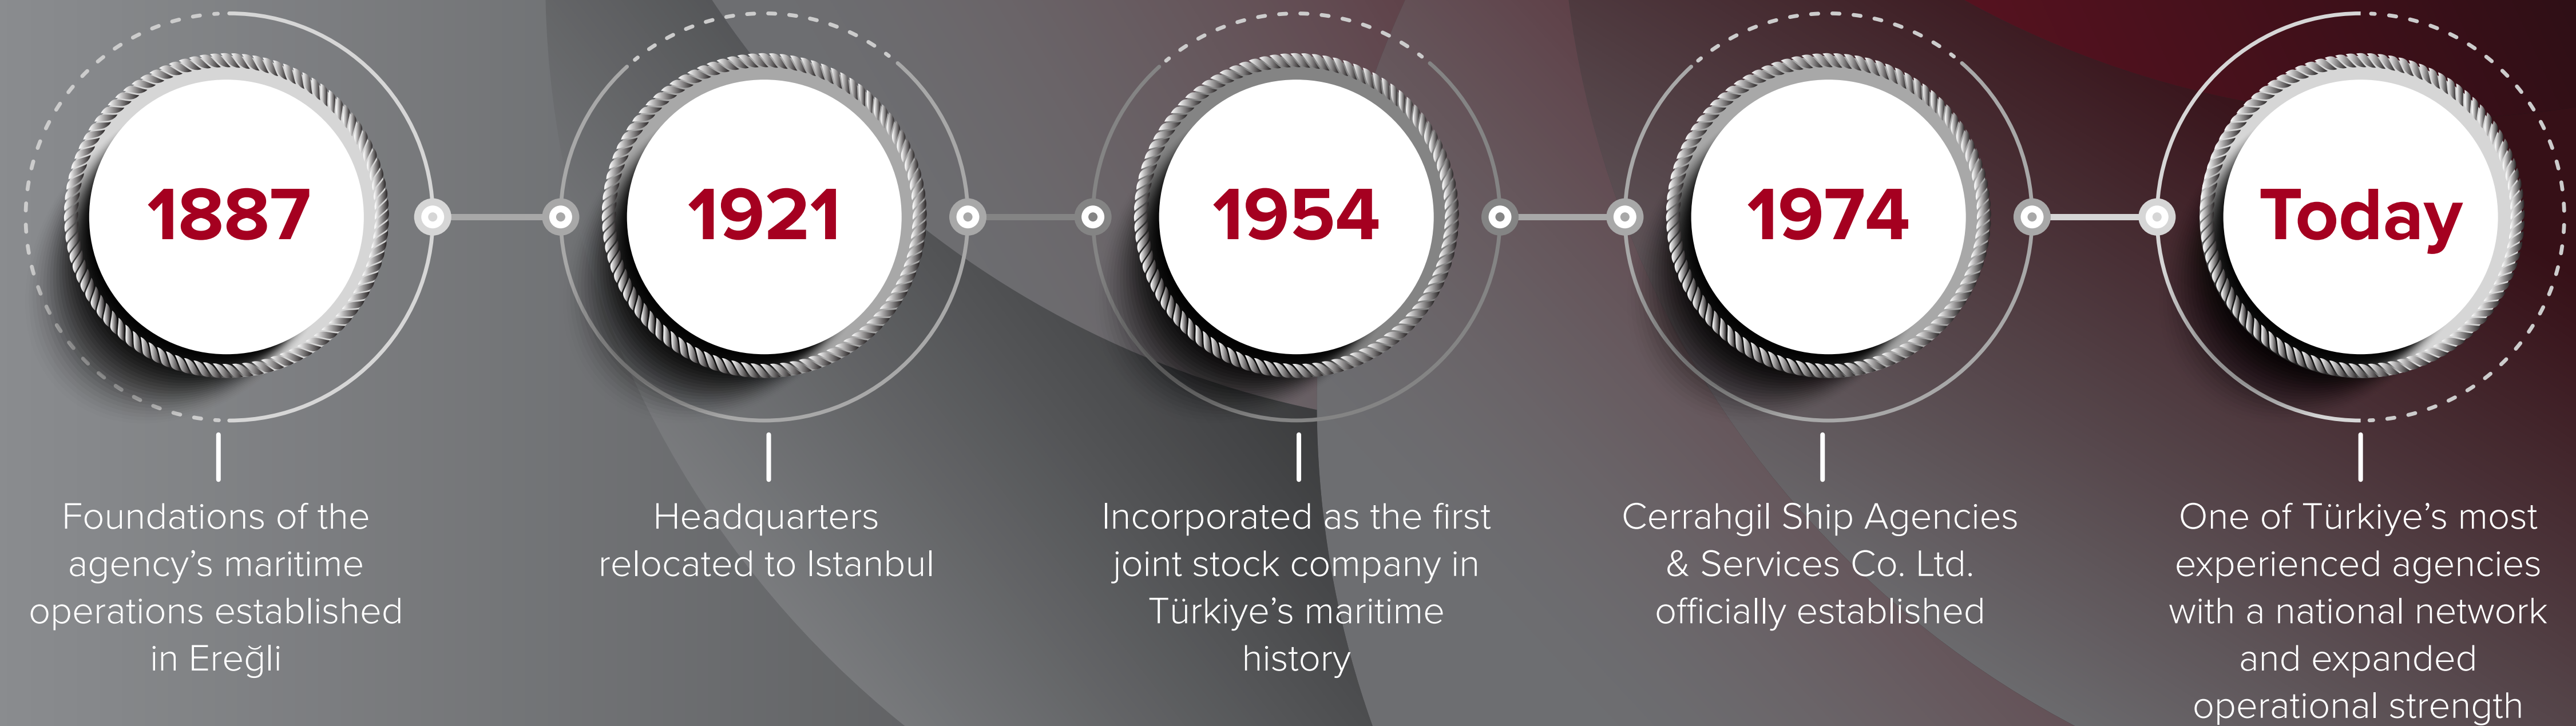

HERITAGE & TIMELINE

HERITAGE

With roots going back to **1887**, Cerrahgil carries a legacy shaped by over a century of maritime experience, operational excellence, and continuous dedication to serving global shipping partners.

Change
Services**

**Shipyard
Services**

**Turkish
Straits
Agency**

**Bunkering
Services**

PORT AGENCY

From pre-arrival to post-departure, Cerrahgil personnel always focus on clear, fast, and effective communication, carefully managing overall disbursement control. Our proactive approach ensures smooth operations and client satisfaction throughout the vessel's stay.

Cerrahgil is proud of its extensive experience in handling various vessel types, including gas and chemical carriers, cruise liners, dry bulk carriers, and vessels requiring special handling such as break-bulk and heavy-lift cargo.

Alongside our full range of standard services, Cerrahgil is regularly asked by principals to assist with market feasibility studies and provide standard port cost estimates. Our extensive network allows us to offer consistent regional coverage throughout Türkiye.

One of Cerrahgil Agency's unique strengths is having our own dedicated offices and staff in 12 major ports across Türkiye, including specialized teams for Tuzla and Yalova drydock facilities. With this network, we efficiently handle vessels at more than 42 private piers and jetties, providing flexible and prompt service.

Clients working with Cerrahgil benefit from centralized funding and simplified disbursement account submissions, significantly reducing administrative workload and expenses. Our detailed local knowledge and strong relationships with local authorities ensure our clients' interests are always protected.

Every member of Cerrahgil's team specializes in shipping operations relevant to their specific port, allowing us to consistently deliver the high-quality service Cerrahgil is known for. This expertise helps Cerrahgil provide quicker responses, better efficiency and more cost-effective solutions, meeting and surpassing our principals' requirements.

• VESSEL HUSBANDRY SERVICES

Our firsthand knowledge and practical experience in all Turkish ports directly benefit shipowners and disponent-owner clients. Cerrahgil's strong local awareness of daily port operations, combined with our proactive approach in promoting these ports, offers significant advantages to our clients. We carefully handle all husbandry services, always prioritizing and protecting our clients' interests at all times.

Working with a wide range of vessels has enhanced our skills and expertise. In addition to supplying vessel spare parts, Cerrahgil Agency provides specialized support, such as underwater inspections, hold cleaning arrangements, workshop tasks, hold and deck repairs, bunker surveys, and condition surveys, fully compliant with Turkish port regulations.

We are proud to be acknowledged by many principals for our reliable service as Charterer's Agents and Owner's Protective Agents (OPA) at Turkish ports. With nearly 75 years of involvement in shipping as both owners and operators, Cerrahgil has built a trusted name and respected reputation with shippers and receivers throughout Türkiye.

CREW CHANGE SERVICES

Vessels requiring crew changes can easily manage these processes without significant delays or course deviations. Although Turkish immigration procedures are strict, careful planning ensures crew changes occur quickly and efficiently. Crew members can conveniently transit through local airports, connecting smoothly with international and domestic flights. Cerrahgil is available to assist with visa inquiries and ensure a hassle-free transfer for all crew members.

SHIPYARD SERVICES

Active for more than a century in the region, Cerrahgil is today recognized as the leading local provider of shipping services to diverse clients across all sectors of the maritime industry. We are committed to delivering consistently excellent support wherever and whenever our clients require it.

Our agency team proudly provides comprehensive agency and logistical support for vessel owners visiting Turkish shipyards in the Istanbul region. We ensure continuous, clock working assistance from our professional and experienced agency staff, along with daily detailed status reports and efficient management of disbursement accounts. Our strong partnerships with Turkish shipyards, extensive knowledge of Customs, Immigration, and Security authorities, and deep understanding of local procedures guarantee smooth and swift handling of crew, personnel, spare parts, and equipment to and from your vessel.

We guarantee timely delivery of high-quality provisions, deck, engine, and yard stores sourced competitively from reputable local suppliers. Our dedicated airport escort and transfer service, along with our in-house travel agency managing tickets and visas, ensures extra care and convenience for your crew and personnel. We also arrange local accommodations, ranging from hotels to short-term leases, as well as vehicle hire.

TURKISH STRAITS AGENCY

While there are over 260 straits worldwide, none compare to the Turkish Straits in terms of geographical complexity and navigational challenges. Cerrahgil Agency provides comprehensive, integrated, and high-quality service specifically tailored to the unique demands of operations through the Turkish Straits. With fully staffed offices strategically located at both Çanakkale and Istanbul ports, we ensure seamless, efficient, and reliable support for vessels navigating this area.

BUNKERING SERVICES

On behalf of our principals, we coordinate bunkering supplies by contacting local suppliers in all major bunkering ports as well as during transit through the Turkish Straits. Smooth coordination of the entire bunkering process is guaranteed by our local staff. If in doubt, please contact us to confirm whether bunkers can be supplied at a given port or berth.

OFFICES & COVERAGE

Nationwide Coverage, Local Expertise

With our strategically positioned 12 own offices and experienced local teams, we provide direct coverage to all major Turkish ports, terminals, industrial zones, shipyards, and anchorage areas.
